A big towboat, of which a brother of Capt. Obadiah Nickerson is in command, reports that four days ago, while coming toward New York from the southward, and when off Cape Charles, passed large bodies of mackerel. This confirms the belief of many of the skippers who are now staying out south, that the main body of the fish are at least two weeks late and are yet to come along. They believe that the fish are to come mixed.

Steamer Alice M. Jacobs, Capt. Solomon Jacobs, arrived during the night, shipped 20 barrels of fresh mackerel to Boston and proceeded to hustle and fit for the Cape Shore, so that he could sail tonight. He reported that there is a good body of fish out to the southward, but they do not show well nor stay up any length of time. For this reason he decided to come home and drive her for the Cape Shore.

A telephone message from Newport last evening stated that some 17 sail of the seining fleet were in for harbor. In the fare landed by the Agnes E. Downes yesterday were considerable many mixed fish. The prospect is considered good. There seems to be a good body of fish, but they do not show well.

DOGFISH PEST.

Bothers Fishermen From Sable Island to Sandy Hook.

Capt. William Slade Reports Them Thicker Than Ever.

The dogfish pest is seriously bothering our fishermen from Sandy Hook to Sable Island. The netters out south all report that this pest is hampering them very much in their fishing and all along the coast comes the same report.

Capt. William Slade of the sch. Volant which arrived this morning brings a hard report of the depredations of these carrion of the sea. The Volant fished on Georges and Brown bank and was fairly driven off the grounds by the multitude of these fish. Capt. Slade then went to a favorite spot off the north-west bar of Sable Island where he always has secured a fare this time of the year and there found the same story—dogfish without end. He says there would be dogfish on every hook, and where there was a cod or halibut, these would be bitten by these ravenous creatures. They would even bite and mutilate their fellow fish caught on the hooks. He says that it is almost impossible to fish west of Sable Island.

Four mackerel traps, namely: County Line, Burn's Point, Iron Bound and Cranberry Head on the Cape Shore, are all in readiness for this important fishery. These are the only traps in that section of the Province, from the north line of Yarmouth County to Cape Fourchu. In former years there were located in the same territory as many as eleven traps, but in consequence of the small catches during the past few years, they have dwindled down to four.

Sch. Victor cleared from Halifax on Friday. The boats at Lunenburg averaged 20 large mackerel on Friday.

The fare of fresh mackerel of sch. Norumbega sold to the Gloucester Fresh Fish Co at 12 cents apiece.

Schs. Mary E. Harty, Grayling, Monarch and Dauntless were at Liverpool on Friday.
